EXPERIENCE

BUSINESS WEB SOLUTIONS| *Web Development Intern*   Jan 2024 - Apr 2024

- Developed full-stack web applications from scratch using HTML, CSS, JavaScript, Bootstrap, jQuery, Python, Django, and React. Created and deployed real-world projects, such as 'travel and e-commerce websites, showcasing a strong grasp of frontend technologies for designing responsive user interfaces and backend development for robust data management and server-side logic integration.

SKILLS

Languages:- Java, Javascript
Frontend:- HTML, CSS, ReactJs, TailwindCSS
Backend:- NodeJs
Database:- MongoDB, MySql
Tools:- Git

PROJECTS

FreshMenu   (Github)

- Designed and developed a responsive food website using HTML, CSS, and JavaScript, including a dynamic scrollable menu section.
- Implemented an "Add to Cart" function with alert notifications and detailed product specifications.
- Created customer review and food blog sections to enhance user engagement and content richness.

Staff Management System   (Github)

- Developed a dynamic staff management system using React.js, Node.js, and MySQL, featuring secure authentication for both admin and staff logins.
- Implemented comprehensive CRUD operations, enabling administrators to efficiently manage staff activities and data.
- Ensured a seamless user experience with a fully responsive design using Bootstrap, leveraging real data to enhance functionality and usability.

News App   (Github)

- Designed and developed a dynamic news application utilizing HTML, CSS, and JavaScript, integrating third-party APIs for real-time news updates.
- Implemented advanced search and categorization features to enhance user accessibility and navigation within the application.
